Indian Motorcycle® recognizes the importance of environmental laws that regulate exhaust and noise emissions and is committed to developing performance parts that allow motorcycle enthusiasts to modify their vehicles in a safe and responsible manner for racing applications. Parts and kits designated with a warning triangle ⚠ indicate that usage restrictions may apply.

Emissions / Safety: Federal and many state laws prohibit the removal, modification, or rendering inoperative any part installed on motor vehicles by Indian Motorcycle® affecting emissions or safety on motor vehicles manufactured for use on a public street or highway. Violation may result in fines.

Noise: Certain Indian Motorcycle® performance parts are subject to noise-related usage restrictions. The warning statement for these parts includes the statement, "Non-competition street use may violate federal noise limits." These products are designed for use on closed course competition motorcycles only and do not conform to U.S. EPA noise emission standards. Use on motorcycles subject to EPA noise regulations constitutes tampering and is a violation of Federal law unless it can be shown that such use does not cause the motorcycle to exceed applicable Federal Standards.

TESTED. PROVEN. AUTHENTIC.

Indian Motorcycle® Accessories are developed in concert with the design, engineering and testing of your motorcycle to ensure perfect fit and premium quality. We insist that our testing exceeds what an accessory or motorcycle will endure on the road. Environmental tests ensure that appearance is maintained, even with exposure to the elements. Structural, Vibration and On-Road testing assure that our accessories meet and exceed riders' expectations.

LESS POLISHING, MORE RIDING.

Every square inch of this unpolished, blacked-out machine is designed to make an uncompromising statement. Indian Motorcycle® Accessories allow you to take that statement even further. Remove nearly every piece of chrome for a custom blacked-out look that will turn heads wherever you ride.

INDIAN
MOTORCYCLE
COMPANY
—
SINCE 1901

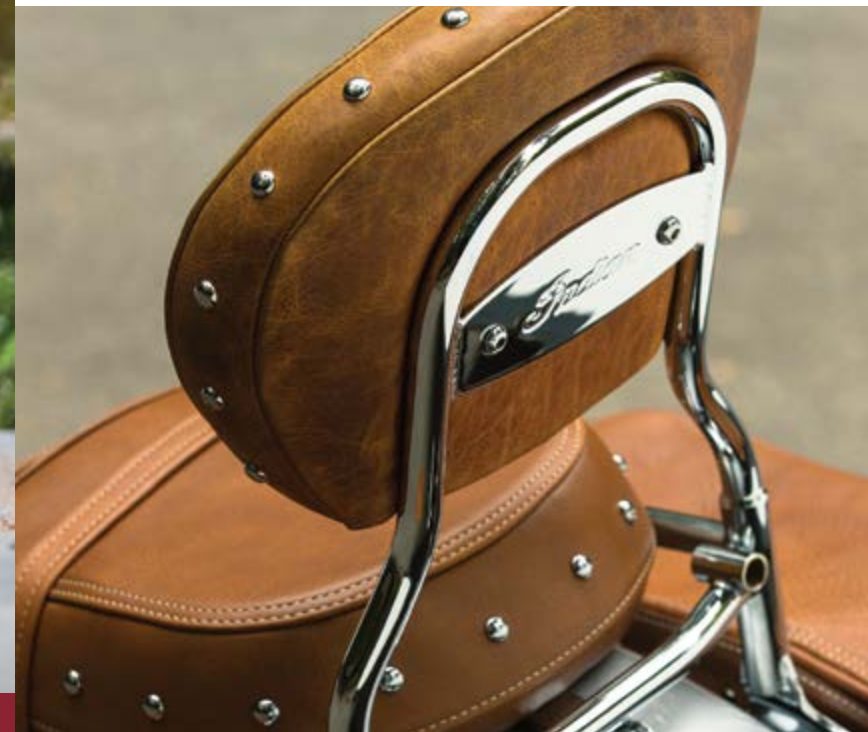

You own an American icon, now add the Indian Motorcycle® Accessories that make it truly yours. With the Thunder Stroke® Stage 1 Slip-On Exhaust, Solo Luggage Rack, and the new Color-Matched Console we've got whatever you need to add your signature to this piece of art.

COVER THOSE MILES IN VINTAGE STYLE.

Indian Motorcycle® Accessories give your bike that distinctive style as you hit the open road. Add blacked-out or chrome Ape Hanger Handlebars, Thunder Stroke® Stage 1 Slip-On Exhaust, with blacked-out Heat Shields and Fish Tail Exhaust Tips for a unique custom look. Whether you head across town, or across the country, you'll get there in style. Your style.

MAKE A STATEMENT.

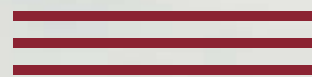

Followers need not apply. Built to go your own way, this hard-bagger rides a lane apart and Indian Motorcycle® Accessories take it even further. Complete the custom painted look with the Color-Matched Inner Dash Kit and Color-Matched Touring Console. The all-new Premium Concert Saddlebag Audio Kit, Thunder Stroke® High Flow Air Cleaner, and Thunder Stroke® Stage 1 Slip-On Exhaust provide a soundtrack that will turn heads.

BUILD YOUR OWN LEGEND.

Get your blood racing with all new Indian Motorcycle® Accessories for your Scout® motorcycle. Designed after the original seat of the first production Scout®, the 1920 Solo Saddle meshes a modern cantilevered design with the original 1920's look. Enhance the custom style of your Scout® with the bronze collection that matches the premium finish of the Scout's legendary 1200cc motor, or go all out with new chrome accessories that will gather attention wherever you go.

ANY WAY YOU WANT.

The new all-weather black vinyl saddlebags and seats allow you to customize your comfort and storage while the new chrome ape hanger handlebars raise your arms and the custom look of your Scout® motorcycle. You can never have enough chrome, so go all out with the new collection that adds a high quality shine from the belt covers to the wire rims.

Scout® CUSTOM FIT

With Indian Motorcycle® Accessories, you can customize the ergonomics so the bike fits you and your riding style. With reduced and extended reach seats, handlebars and foot controls a Scout® can fit any rider from 5'2" to 6'4" comfortably.

—
Paint Pen features double applicator design:
Brush applicator to fill in deep scratches or chips
Interchangeable chisel or bull-nose pen-tip design for small or fine scratches
Aerosol can used for larger areas or to color match additional parts
Available in all colors
Visit your local dealer for application requirements and order placement

LOCTITE®

When building your bike, we make sure to use only the best adhesives. That's why we recommend Loctite® for any and all of your sealant needs while working on your Indian Motorcycle®.

LOCTITE® RED THREADLOCKER STICK

2830364 High Strength

—
Will not run or drip
Ideal for inverted locations or other areas where liquid thread-locker is difficult to apply
Heat may be required for disassembly

LOCTITE® BLUE THREADLOCKER STICK

2830362 Medium Strength

—
Offers same locking strength and sealing capabilities as the traditional threadlocking liquid
Can be applied even if assembly takes place at a later time
Removable with hand tools
Ideal for inverted locations or other areas where liquid thread-locker is difficult to apply

LOCTITE® GASKET MAKER 518™

2830327

—
Creates a form-in-place gasket on rigid flange type connections such as gearboxes or engine casings
Formula is rated for low-pressure assemblies and can be seen under UV lighting for follow-up diagnostics

LOCTITE® RTV 598 BLACK

2830233

—
Retains high flexibility and oil resistance for longer gasket life
Features a temperature range of -75°F to 625°F (-59°C to 329°C) intermittent
Low odor, non-corrosive and resistant to most chemicals and solvents
Fills gaps to 0.25"

LOCTITE® THREAD SEALANT STICK

2830236

—
Will not run or drip
Designed for locking and sealing of pre-torqued fittings
Ideal for inverted locations or other areas where liquid thread-locker is difficult to apply
Prevents loosening and leakage from shock and vibration
